

JuniFunds

Simplified Wire Transfers

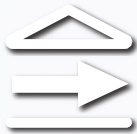

Automated Wires

JuniFunds, the hosted real-time wire solution from Juniper Payments, is the convergence of system integration and intuitive user experience. From template creation to processing, JuniFunds delivers a simplified and flexible application designed to help expand revenue opportunities and create operational efficiencies for your financial institution.

Seamlessly connecting via APIs, JuniFunds automates balance checks on outgoing wires and posting of inbound wires directly to the core. Domestic Wire payments are sent and received immediately via Juniper Payments' FedLine Direct® connection.
